Subject: RE: Gila Reaches Data Summary

Hello Doug,

Thank you for the information. Is there an available layer for the Resolution Mine East plant area that is associated with the Queen Creek TMDL?

Thank You,
Matt

Subject: Gila Reaches Data Summary

Greetings from ADEQ-

In advance of our teleconference tomorrow, I am providing the summary as requested for the two Gila reaches of concern in the 2016 Integrated Report. You'll find single sample maxes addressed in here. We hope this is sufficient to give EPA the justification and confidence they need to agree that the status of these reaches should be 4A. Thanks.
